The huge influx of Yankee gold seekers, squatters and settlers, and the admission of California to the United States on September 9, 1850, quickly brought an end to the Spanish/Mexican period of California's history. Alisal, as Pleasanton was known at the time, was located on one of the main routes to the gold fields and quickly became a mercantile stopover for miners seeking their fortune in the Mother Lode.

Pleasanton, the jewel of the Amador Valley, is located in the eastern portion of the San Francisco Bay Area. Our geographic location has been one of the major factors in shaping our past and will continue to shape our future.

Pleasanton is truly a community that cares. When a need arises, regardless of size, whether it is a child with a critical disease, a non-profit needing enlarged facilities, a city service that needs expanding, or an issue about community growth, citizens from all walks of life unite to identify and implement positive solutions. The degree of success in accomplishing community goals has been exceptional and continues to enhance the quality of life in this sparkling jewel called Pleasanton.
